</tbody>
</table>
It is important to treat these data with caution. It would be a mistake to infer from them that any one major is better than another in preparing students for the LSAT or, indeed, for law school itself. It is not possible to know whether or not the students whose data are captured here would have performed equally well on the LSAT regardless of their selected major.

• These data display year of enrollment. For example, 2019 would include candidates who applied to enroll in the Winter 2019, Spring 2019, Summer 2019, and Fall 2019 terms.
• These data summarize valid LSAT scores and undergraduate GPAs for all applicants to one or more ABA-accredited law schools for the year noted.
• All applicants must have a valid LSAT score, GPA, and major listed to be included.
• Students are able to take the LSAT multiple times. Each student’s highest LSAT score is used in computing the mean/median.
• All applicants with a single major are counted once, but double majors are counted twice. Column sums will not sum to the published numbers of applicants.
• All majors listed are undergraduate majors only, and graduate degrees or majors are excluded.
• Majors with fewer than 5 applicant counts have been excluded from these tables.
